Dear Nevio,

IFC 14/2018 3.6 GHZ BAND LEGISLATIVE INSTRUMENTS CONSULTATION

1. Defence provides this submission to the public consultation on this topic (IFC 14-2018).
2. In general, Defence supports arrangements in the 3.6 GHz band that will facilitate efficient adoption and transition to the use of international standards for 5G technologies in both the 3.4 and 3.6 GHz bands.
3. Defence supports the TLG recommendation that there should be a single technical framework covering both the 3.4 GHz band and 3.6 GHz band. These arrangements should reflect the appropriate parameters to manage the sharing issues highlighted in the TLG.
4. My point of contact is Mr Alex Wright on (02) 6144 4561 or via email alexander.wright1@defence.gov.au.

Yours sincerely

David Murray
